Description

MaxxECU PRO is a product developed from the ground up to be flexible, reliable and fast. MaxxECU PRO gives the user complete engine control!
Fast Facts:

- Up to 12 cylinders sequentially.
- 16 injector outputs (low or high impedance injectors).
- 12 ignition outputs
- 12 inputs for exhaust gas temperature sensors (EGT).
- Built in MAP-sensor for boost pressure up to 3bar (400Kpa).
- Built in driver for dual WBO sensors (LSU 4.2 and 4.9 compatible)
- Dual E-Throttle(DBW) support.
- Dual knock sensor input
- 16 optional 0-5V inputs.
- 6 additional temperature inputs.
- 10 additional digital inputs (4 of them can be used with VR sensors)
- 30 auxiliary outputs (GPO), 8 of them +12v outputs
- 2 0-5V output.
- 1 5-10v output (sensor output).
- Dual CAN bus.
- Waterproof aluminum case.
- Connectors, software and settings completely backwards compatible with standard MaxxECU. Easy upgrade.

Parts Included:

- MaxxECU PRO unit only
- MaxxECU Quick Guide (English)
- MaxxECU V1/RACE/PRO flying lead wiring harness connector 1
- MaxxECU PRO flying lead harness 3m connector 2 (EGT)
- MaxxECU PRO flying lead harness 3m connector 3 (cyl 9-16, E-Throttle, extra out)
- MaxxECU PRO flying lead harness 3m connector 4 (extra in/out, CAN 2, KNOCK)
- Lambda Sensor Bosch wideband lambda LSU 4.9 (0281 004 191)
- Connector 6-way socket housing (LSU 4.9/5.2 wideband sensor)
- MaxxECU Bluetooth mobile antenna
- MaxxECU extra cable for installations
- MaxxECU PRO bracket kit
- MaxxECU hose kit (MAP sensor incl nipples)
- MaxxECU PRO / RACE H2O USB-cable 1.5m
- MaxxECU sticker
- MaxxECU PRO wiring diagram (printed)
